**Board of Registration of Professional Engineers

SPECIAL NOTICE TO LAND SURVEYOR AND LSIT APPLICANTS

The definition of the practice of land surveying varies from state to state. Idaho's definition, quoted below, is one of the most restrictive because it confines the practice to field and office work related only to property lines. Surveying work related to topographic mapping, profiles, ordinary construction surveying and other "engineering type" surveys cannot be considered as qualifying experience by the Idaho Board.

Section 54-1202 defines "land surveying" as "responsible charge of surveying of land to determine the correct boundary description, to convey, to establish or reestablish land boundaries, or to plat lands and subdivisions thereof."

You are cautioned to carefully consider the above definition in filling out your application for Professional Land Surveyor or Land Surveyor-in-Training and you are instructed to list your experience under Item 15 as shown in the following examples and the description **MUST** include your percentage estimate of professional land surveying time:

| | DATE | | DESCRIPTION PRESENT A BRIEF NARRATIVE OF YOUR LAND SURVEYING RESPONSIBILITIES ON THE JOB | TIME ENGAGED IN LS WORK TO NEAREST MO | | | | NAME AND ADDRESS OF EMPLOYER |

| | FRO M | TO | | Total Time | | LS Time | | |
| | | | | Yr | M | Yr | M | |
| 1. | July 1977 | June 1979 | Construction inspection, mapping control network and boundary locations for major mining company in Northern Idaho. <u>25% land surveying; 50% engineering surveying; 25% drafting</u> | 2 | 0 | 0 | 6 | WYZ Mining Corp. P.O. Box 1234 Kellogg, Idaho 83837 |

You are further informed that your application may be returned or delayed unless the above illustrated method of indicating your experience record to the Board is followed. If experience is not continuous, list activities during the period of non-surveying activities under Item 16.
