**II. REVIEW AND APPROVAL OF CONSENT AGENDA**

1. The following items have been continued at previous meetings and staff is unaware of any activity relating to these matters:

- a. FY08.23a: Munio, Albert, unlicensed practice
- FY08.23b: Bessaw, John W., P.E., violations of statutes and Rules of Professional Responsibility

- c. FY10.08 Spaulding, Scott, standard of care. This matter is pending completion of course work.
- d. FY10.09 Lund, Michael, Rules of Professional Responsibility. A preliminary investigation has been authorized. On advice of Counsel, the investigation has been halted pending the outcome of an investigation by the Office of the Attorney General.

- 2. ISPE nominated George Wagner to serve on the Board.

Moved by Mr. Milligan, seconded by Mr. Bennion to note the items on the Consent Agenda with no further action. Motion passed unanimously.

### **III. UNFINISHED BUSINESS**

- 1. Review Strategic Plan Objectives. Mr. Young stated that Goal 3 Objective B will no longer be necessary effective July 1, 2010.

Moved by Mr. Milligan, seconded by Mr. Howe to approve changes to Strategic Plan by eliminating Goal 3 Objective B. Motion passed unanimously.

- 3. A subcommittee of Mr. Young and Mr. Bennion will report progress on reviewing state job descriptions in terms of engineering without licensure requirements.

Mr. Young reviewed the DHR descriptions for engineering and found no discrepancies. Geologist and Geologist Engineering Assistant do not require licensing as an engineer, but require a geologist background. The Board discussed the overlap or “gray areas” of engineering and geology and work being done in the private sector versus the public sector. There are some Public Television Broadcast Engineer descriptions that do not really include professional engineering but rather maintenance and operations.

Moved by Mr. Milligan, seconded by Mr. Bennion to authorize the Chair to sign a letter to Mr. Falk stating that the Board reviewed the DHR position descriptions and while the actual unlicensed practice of engineering is a broader issue and has to be dealt with on a case-by-case basis, we do not see the need to pursue the matter further. Motion passed unanimously.

5. A subcommittee of Mr. Bennion, Mr. Milligan and Mr. Szatkowski met with representatives of ITD to review whether Storm Water Prevention Plans need to be stamped. There has been no further communication with ITD on this matter.

Moved by Mr. Milligan, seconded by Mr. Howe to close this matter. Motion passed unanimously.

8. An Item Writing Workshop was held March 8 & 9, 2010 in Moscow in advance of the ISPLS Annual Meeting. The Workshop was conducted by Jack and Steve Warner of TEST, Inc. out of Aurora, Colorado. Staff would like the Board to consider appointing a subcommittee to develop the final July 2010 version of the Idaho State-Specific PLS exam. Mr. Milligan suggested that we should require a listing of a reference to justify the correct answer and that each distracter needs a clear and documented rationale. The Board noted the suggestion and directed Mr. Howe and Mr. Young to evaluate new items and prepare new exam.
11. David Kelly would like to obtain a license in Idaho based on comity with his Oregon license. He is licensed as a Traffic Engineer and took a State-Specific exam for licensure. Is this exam equivalent to an NCEES PE exam? Staff obtained a copy of the exam from California. Mr. Milligan reviewed the examination and reported to the Board that the examination is sufficient for approval as a Traffic Engineering examination.

Moved by Mr. Milligan, seconded by Mr. Bennion to approve the examination for licensing purposes and if we get a candidate for comity who has taken and passed it, and is otherwise qualified, we should license them as a professional engineer especially qualified in Traffic Engineering. Staff is directed to consider such applicants as non-standard. The Board authorized the Chair to inform Mr. Kelly that if he applies for a license in Idaho his education and experience will also need to meet the requirements of Idaho Code and will be evaluated by the Board. Motion passed with Mr. Wagner voting against the motion.

8. Under the current CPD rules, engineers are exempt from the effective date of the CPD requirement (May 8, 2009) to their next biennial renewal. The Board established a policy that any CPD PDH's earned by an engineer during the renewal biennium in which the exempt period falls may be carried forward to the next renewal biennium (up to a maximum of 30 PDH's). If an individual takes and passes the PE exam after May 8, 2008, they are exempt from the CPD requirement during the time between issuance of their license and their next regular biennial renewal. Would the Board approve carrying forward any CPD PDH's earned by that engineer during the renewal biennium in which that exempt period falls?

Moved by Mr. Milligan, seconded by Mr. Bennion to approve carrying forward any CPD PDH's earned by an engineer during the renewal biennium in which that exempt period falls up to a maximum of 30 PDHs. Motion passed unanimously.

Moved by Mr. Milligan, seconded by Mr. Howe to authorize the Chair to write to candidate and inform her that the FE review course is not allowed as additional education to qualify for assignment to exam, and repeat is not allowed either. Motion passed unanimously.

10. DEQ created a brochure on how to hire an engineer.

Moved by Mr. Wagner, seconded by Mr. Milligan to authorize the Chair to send a letter to DEQ complimenting them on their brochure, and suggest that they submit a copy of it to the QBS Facilitation Committee for their comments. DEQ may even want to provide information on that group in the brochure. Motion passed unanimously.

11. Mr. Truchot will be out of the country for an extended period of time making it difficult for him to complete his CPD.

Moved by Mr. Milligan, seconded by Mr. Bennion to authorize the Chair to write to Mr. Truchot and let him know that the Board will allow earning the PDHs required to be postponed for 6 months after returning to the USA for a period of at least 6 months. Staff directed to develop amendments to Administrative Rule for future consideration by the Board. Motion passed unanimously.
